The *Journal of Vacuum Science & Technology A* is published six times annually (Jan/Feb, Mar/Apr, May/ Jun, Jul/Aug, Sep/Oct, Nov/Dec) by AVS through the American Institute of Physics (AIP). It is an official publication of AVS and is received by all members of the Society. It is devoted to reports of original research and Review articles. The *JVST A* will include topics such as applied surface science, electronic materials and processing, fusion technology, plasma technology, surface science, thin films, vacuum metallurgy, and vacuum technology. This journal will publish the proceedings of conferences and symposia that are sponsored by AVS and its divisions. *JVST A* is also available online and in CD-ROM format. When a paper is accepted for publication in *JVST A* and as soon as it is formatted and proofread, the paper will be posted on the *JVST* website with the *final archival volume and page reference*. As a member or subscriber you are eligible to receive all *JVST A* issues on-line from 1983 to present just as they appear in the hard copy version. In addition, *JVST* is available to members and subscribers dating back to its initial publication in 1964 (prior to the split into *JVST A* and *JVST B*). Please contact AVS to set up your online account.

Submit Manuscripts to the AVS Publications Office of the *Journal of Vacuum Science & Technology*, 100 Park Drive, Ste. 105, Caller Box 13994, Research Triangle Park, North Carolina 27709-3994; e-mail: jvst@jvst.org. Manuscripts of papers presented at AVS-sponsored conferences and symposia and being submitted to *JVST A* should be sent to the Guest Editor appointed for that particular conference. Before preparing a manuscript, authors should read "Information for Contributors," posted under Technical Literature at www.avs.org and printed in the first issue of each volume of the journal. Submission of a manuscript is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. Upon receipt of a manuscript the Editor will send the author a Transfer of Copyright Agreement form. This must be completed by the author and returned *only* to the Publications Office prior to publication of an accepted paper in the *Journal of Vacuum Science & Technology A*. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 copyright law in order for AVS and AIP to continue disseminating research results as widely as possible. Further information may be obtained from AIP.

Publication Charge: To support the cost of wide dissemination of research results through the publication of journal pages and production of a database of articles, the author's institution is requested to pay a *page charge* of \$85.00 per page without reprints or \$95.00 per page with 100 free reprints. For Errata the minimum page charge is \$10, with no free reprints. AVS members receive the benefit of having page charges waived.

Supplementary Material: Authors may submit multimedia, data tables, text, etc. for publication online alongside their manuscript. For additional information see <http://www.aip.org/pubservs/epaps.html>.

(Note: The ISSN for this journal is 0734-2101.)
